

RDM GROUP

Together we shape the future

ABOUT US

RDM Group is one of Europe's leading recycled board manufacturers for fibre-based packaging solutions. All products are made from renewable materials and are designed to be fully recyclable, supporting a circular economy.

Our operations span 8 mills and 4 sheeting centers across Europe and the US, employing over 1,900 people. We serve customers in more than 70 countries, delivering innovative and high-quality packaging materials.

Our robust international network ensures flexibility, proximity to customers, and supply security.

OUR PRODUCTS

At RDM Group, we specialize in producing high-quality recycled cartonboard products designed to meet the diverse demands of modern packaging. Our portfolio is built around two core offerings:

White-Lined Chipboard (WLC)

WLC is a coated cartonboard known for its excellent printability and reliable performance across a wide range of applications, from food packaging to personal care, household products, and electronics.

Key Features:

- Made primarily from recycled fibres
- Grammage range: 140–550 g/m²
- Available in multiple grades, including GD, GT, PE-coated, and liners
- Supplied in reels or sheets, customized to client needs
- An ideal choice for brands looking to combine sustainability with performance

Solid Board

Our Solid Board is a high-grammage, crafted board for applications where rigidity, precision, and presentation matter most, such as luxury packaging, games, puzzles, and high-end publishing.

Key Features:

- Exceptional rigidity and flatness for superior performance
- Grammage range: 320–950 g/m²
- Offered in multiple finishes, including mass-colored grades
- Perfect for premium packaging that demands visual impact and structural integrity

APPLICATIONS AND ADDED VALUE

RDM Group's cartonboard products serve a wide variety of industry applications, providing both functionality and sustainability.

Our White-Lined Chipboard (WLC) is ideal for food packaging, cleaning products, personal care, and home appliances, offering a recyclable solution that maintains strength, print quality, and versatility.

Meanwhile, our Solid Board caters to specialty and premium products, including luxury packaging, displays, games, puzzles, and premium books, combining superior rigidity and visual appeal.

By choosing RDM Group cartonboard, brands gain a reliable, eco-conscious material that adds structural integrity, aesthetic quality, and sustainable value to their packaging solutions.

OUR STRENGTHS

Broad Product Offer

We offer a diverse product portfolio based on recycled fibers and specialized board solutions.

Size Within the Market

We're a market leader in the European packaging board sector, offering customer proximity and reliability.

Multi-Country Footprint

We can boast a strategic international presence thanks to 8 production plants, 4 sheeting centers and a sales network covering 70 countries.

Flexibility

Our Multi-Mill Concept ensures continuous, timely supply for our customers regardless of market or logistical changes.

Sustainability

All our products are recyclable and designed to re-enter the circular economy.

SUSTAINABILITY

Sustainability is embedded at the core of RDM Group's business model. We champion the circular economy by utilizing renewable, recycled materials and striving for continuous improvement in energy efficiency, waste recovery, and emissions reduction.

-  96% of our fiber-based raw materials is paper for recycling.
-  85% of all materials used come from renewable sources.
-  Reduced CO2 emissions per ton by 9% since 2020; targeting 30% reduction by 2030.
-  Waste sent for recovery increased to 89.7%; aiming for 90% by 2030.
-  Contribute to the UN Sustainable Development Goals including occupational health and safety, gender equality, energy efficiency, and responsible forest resource management.

RDM Group links its financial strategy to sustainability through a Sustainability-Linked Bond, reinforcing our dedication to environmental responsibility.

OUR PEOPLE

At RDM Group, our greatest asset is our people. Employing over 1,900 individuals across Europe and US, we foster an inclusive, supportive workplace that encourages growth, diversity, and wellbeing.

-  Female representation increased by over 17% since 2020.
-  Comprehensive health, safety, and well-being programs aimed at zero-accident workplace.
